Myra,

This will confirm my discussion with Jim Petro regarding the GMH public hearings. He advised that if it is the joint opinion of the GMH representatives and myself that a public hearing should also be held for the subdivision since we are having one for each site plan, he would go with my recommendation.

This will confirm (for the benefit of the cc's listed) that you were able to have the publication notice modified for the paper to list all 3 applications in the public hearing notice.

Jim Sperry, make sure you coordinate with myra so the proper notice is mailed in the circulation.

Email any comments or questions.

Mark
